### HEALTH APPRAISAL QUESTIONNAIRE

NAME:

DATE:\_\_\_\_\_

#### Directions

Your answers to this health questionnaire will assist me in gaining information about your current and past symptoms and health concerns. Please answer all questions in each section. The questionnaire asks you to assess how you have been feeling <u>during the last six months</u>. This information will help you keep track of how your physical, mental and emotional states respond to changes you make in your eating habits, priorities, supplement program, social and family life, level of physical activity and time spent on personal growth. You may note that some questions are repeated throughout the questionnaire. I would appreciate it if you can answer <u>all question</u>s, as this will ensure the most accurate interpretation of your results. You may however leave a question blank if you are unsure of the answer. Take all the time you need to complete it.

#### For each question circle the number that best describes your symptoms:

0 = No or Rarely — You have never experienced the symptom or it is familiar to you but you perceive it as insignificant (e.g. monthly or less)

1 = Occasionally — Symptom comes and goes and is linked in your mind to stress, diet, fatigue or some identifiable trigger

4 = Often — Symptom occurs 2-3 times per week and/or with a frequency that bothers you enough that you would like to do something about it 8 = Frequently — Symptom occurs 4 or more times per week and/or you are aware of the symptom every day, or it occurs with regularity on a monthly or cyclical basis

#### Some questions require a YES or NO response: NO = 0 / YES = 8

All case history and medical information recorded on this form and during the consultation are kept strictly confidential. Information in this questionnaire and other patient files will not be released to any person or agency except with your authorisation or where required by law.

#### Main health concerns / symptoms

Severe / Moderate / Mild	Year of onset
	Severe / Moderate / Mild

#### List current medications, vitamins, minerals, herbs etc. Include contraceptive & medications taken regularly (e.g. antacids or aspirin)

Name of medication / supplement (include brand names)	<b>Dose per day</b> (e.g. 30g or 2/day)	<b>Duration taken</b> (e.g. 3 months)	<b>Reason(s)</b> (e.g. for acne)	Does it help? No moderately/ markedly

#### Joanna Sochan Nutritionist-Herbalist-Naturopath m 0412 130 401

### Have any other family members had similar health issues (describe)

Family member (e.g. mother)	Health issue	Duration

### What other therapies have you had so far? e.g. doctor's advice, diet modification, homeopathy, acupuncture, chiropractic etc

Treatment type	Duration	Does/did it help? (No / moderately / markedly)

# Laboratory tests performed in the past 6-12 months e.g. blood tests, stool analysis, hair analysis, any other relevant tests

Laboratory / other tests	When / Date	Outcome

Please bring copies of all tests performed in the last 6 months at a minimum

# Major hospital procedures – surgeries, injuries etc. Please list all procedures done and complications (if any)

Surgery / Illness / Injury	Year	Outcome

# Your past medical conditions - childhood and adulthood

Childhood (ear infections, measles, frequent antibiotics etc)	Accidents or injuries in the last 5 years and major incidents before
Adulthood (asthma, hepatitis, diabetes etc)	that.

# Family medical history (all known illnesses e.g. heart disease, high blood pressure, cancer, diabetes, allergies, etc

Relationship	Age (if deceased, age at death)	Health issue

Militak fanada da wax avat dara davita 2	□ AB □ Rh+ / □ Rh-								
Which foods do you avoid and why?	□ O □ Rh+ / □ Rh-								

# **CONTEXT OF CARE QUESTIONNAIRE**

One of the most important things you can do to develop new daily practices and habits is to understand your readiness to make the necessary changes and improvements. In addition, as your therapist, it's useful for me to understand how willing you are to adopt practices, as slowly or as quickly as it feels right for you.

Please answer the questions below or select the response most appropriate to your situation.

### List your top three priorities in life

.)	
/hat are your current top 4 health and lifestyle goal	s?
